

Optimizing Lifetime Costs / Performance of your Lifts or Escalators

Lift & Escalator Assessment and the Impact for your building

Addressing problematic vertical transport installations does improve the lift service and reduce onsite hassles for the customer.

Whether it is one lift or a portfolio of buildings, the **management** of the **ongoing lift service** requires regular **review** and scrutiny. Minc Elevator Consulting (MEC) knows what can and should be provided and will ensure the customer **receives** the **quality service** they paid for.

Minc Elevator Consulting is a lift consulting company with integrated solutions for your vertical transport.

For any vertical transport concerns that you may have, contact us, or visit our website:
